Why Choose Geography at Virginia Tech?

- Graduate student success in obtaining employment in a variety of fields and in entering advanced degree programs
- Funding available for domestic and international research
- State-of-the-art GIS, remote sensing, and biogeography facilities
- Nationally recognized, award winning faculty with diverse areas of expertise

- Around campus and the Blacksburg area

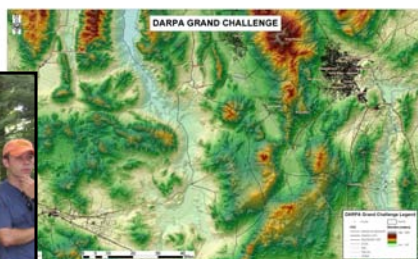

Location

Virginia Tech is in Blacksburg, VA, a town of 40,000 people, located on a plateau between the beautiful Blue Ridge and Alleghany Mountains. The location provides exceptional opportunity for outdoor activities and the study of geographic issues in a wide variety of physical and cultural settings.

Admission and Financial Aid

We welcome applications from geography majors and non-majors holding Bachelor's degrees from accredited colleges. Teaching assistantships, research assistantships, and a number of scholarships are available on a competitive basis. The application deadline for students requesting financial aid is February 15.
