***Living Expenses include estimated costs for food and housing

****Transportation Expenses for In State and Out-of-State include additional costs for experiential learning travel for VM3 and VM4

*Loan Fees are only included if federal student loans are used.

The estimated Cost of Attendance (COA) represents the projected total cost to attend Virginia Tech for each academic year indicated.

- Books, Transportation, and Personal costs are variable, out-of-pocket expenses that are not part of your billing statement. These costs will vary by student. Loan fees are the average amount of loan fees incurred by all students for Federal Direct Loan funds during the previous academic year.
- Most Professional students that complete a FAFSA are eligible for a Federal Unsubsidized Direct Loan of \$40,500 per year. Additional funding, up to the full COA, less other financial aid can be obtained through Graduate Federal PLUS Loans. Scholarships count as 'other financial aid' and can reduce initial loan awards.

*Fourth year students are paid the same amount as 1st and 2nd year students. 3rd year students' costs for the year are spread over the summer/fall/spring.
